

Carlos Ramirez

Springville, UT • (801) 921-9616 • cgr-20.github.io/portfolio

Professional Summary

Front-end developer with hands on experience building responsive, user-focused web interfaces using HTML, CSS, and JavaScript. Educated in modern design practices to create efficient, visually appealing websites. Passionate about writing code and improving user experiences through attention to detail and collaboration.

Education and Projects

Bachelor of Science in Computer Science, December 2024

Utah Valley University – Orem, UT

Dynamic Form Table Website Project

Simple website that mainly uses JavaScript to create a simple form that stores information about users. The table can be edited by adding, editing, or deleting users.

Digital Media Portfolio Website Project

Personal portfolio made to showcase course work for Digital Media class using only HTML and CSS.

Online Store Website Project

An attempt to imitate a store-based website, complete with navigation bar with functional buttons and form elements with restrictions such as checkboxes and dropdown menus. Media like images, audio, and videos are also added to the website.

Skills

Code theory and typography basics.

Version control with Git and GitHub.

Experience with RESTful API and JSON.

Debugging and problem-solving.

Programming proficiency in Python, HTML, CSS, JavaScript, React, SQL.

Work History

Document Processing and Data Entry Clerk (Seasonal), April 2026 – May 2026

Utah State Tax Commission – Salt Lake City, UT

Worked extensively with data-focused systems and workflows to process, verify, and maintain accurate physical and digital records.

Used analytical thinking and attention to detail to ensure data integrity and efficient information processing.

Shipping Assistant, June 2019 – August 2019

Young Living Essential Oils – Springville, UT

Collaborated effectively in a fast-paced workplace, emphasizing teamwork and adaptability to meet goals.

Maintained accuracy and organization under pressure, supporting consistent results.

STEM Ambassador, August 2016 – May 2017

Led interactive coding sessions with middle school students, focusing on building engagement through clear explanations and visuals.

Partnered with peers to create lesson plans that emphasized problem-solving to help students develop a coding mindset.
